

Who We Are

ATCO Contracting Group, Inc. is a trusted, fully licensed, WBE company specializing in Asbestos, Mold, Lead and Hazardous Waste Removals along with select demolitions. Since being established in 2004, ATCO has completed over 500 projects for a wide array of clients, ranging from government agencies to construction companies, with work ranging from a simple duct removal to full scale abatement. Our team is committed to clear communication and ensuring that ATCO is always "The First Time. On Time. Every Time."

Differentiators

- ✓ **Experience:** 20+ years of experience in a niche field of environmental remediation and ensuring compliance.
- ✓ **Competence and Delivery:** Our competent Project Managers and site supervisors guide our clients to a smooth completion of their project.
- ✓ **Financial Capacity:** With a \$7.5 million single, \$15 million aggregate bonding capacity, no project is ever out of reach.
- ✓ **Clear Communication:** Our team with 10+ years of experience guide our clients through every stage of the project.
- ✓ **Field Capacity:** 30+ fully licensed union (Local 78 and 12A) employees that are ready to perform.

Key Areas of Support

Our team provides complete support across every stage of the construction process, from planning and coordination to execution and final delivery. We focus on quality control, safety compliance, resource management, and smooth site operations. With clear communication and reliable supervision, ATCO's projects are usually completed

Site Supervision

Facilitating communication and compliance with City, State and Federal regulations

Safety Compliance

Experienced to ensure that the worksite is secured and work to be properly performed

Material & Resource Management

Organized logistics and competent staff that ensure that cost-effectiveness prevails.

Quality Control

Ensuring that even the most complicated projects are completed on a timely basis, to the satisfaction of the client.

Core Capabilities

Asbestos Abatement

- Professional, licensed crews trained to use equipment to facilitate removals and proper disposals of asbestos-containing materials.
- Site plans thoroughly designed by the ATCO team, thoroughly aligned with NYCDEP, NYSDOL and applicable EPA/OSHA regulations.

Lead-Based Abatement

- Permanent lead-based removals, encapsulations, and decontamination of lead contaminated areas
- Safe workplace isolation, HEPA-contained debris management, and alignment with EPA and OSHA standards to swiftly secure clearance

Mold Remediation

- NYSDOL certified. Comprehensive fungal inspection, and permanent removal of contaminated materia using industry approved treatments.
- Advanced HEPA air scrubbing and negative-pressure containment protocols to prevent spore mitigation and facilitate a positive air clearance result.

Interior & Mechanical Demolition

- Performance of interior and mechanical demolitions to nonstructural components to prepare space for renovation or remodeling
- Safe decommissioning and removal of commercial HVAC, plumbing, and electrical systems
