## **SUMMARY of SERVICES**

ATCO CONTRACTING GROUP, INC., is an abatement/demolition/General Construction contractor with specialized skills and equipment that speed commercial renovation and demolition projects.

- Environmental Services
- Asbestos abatement
- Lead abatement
- Lead paint removal & stabilization
- Lead tile removal
- Mold abatement
- Removal of mold impacted building material
- Cleaning of mold impacted building material
- Dry out and dehumidification
- Unique soda blast process
- Sand/scrape/encapsulate
- Restoration of mold/water damaged areas
- Animal waste abatement
- Bird, bat, rodent
- Hazardous material abatement
- Fluorescent bulbs & PCB containing ballasts
- HEPA cleaning of contaminated dusts
- Demolition
- Soft Demo (interior demolition for tenant improvement (TI) and renovation)
- Removal of all interior fixtures, finishes, partition walls, windows, doors down to bare shell.
- Schools, hospitals, municipal facilities, shopping centers
- Hard Demo
- Exterior elements of building renovation projects
- Out buildings & small structures
- Concrete pads, floors & walkways
- Concrete preparation

105 Maxess Rd.  
Suite N206

- Floor finish and adhesive removal
- Scarifying and diamond grinding
- Waste Hauling
- Drop off bin service
- Hazardous & non hazardous materials..

### **ASBESTOS ABATEMENT**

ATCO Contracting Group's asbestos abatement professionals have completed over 3,000 successful abatement projects since 2004. The projects have entailed all types of materials requiring abatement including, but not limited to, sprayed-on acoustic ceilings, sprayed-on fireproofing, vinyl asbestos floor tile and mastic, linoleum, roofing materials, sheetrock, heating duct, pipe insulation (TSI), including underground pipe, and boiler insulation. All ATCO's workers and supervisors are trained by independent AHERA certified training centers and have six or more years field experience. Abatement project durations have ranged from one-day emergency response cleanups to multi-staged, long-term projects.

### **LEAD/LEAD-BASED PAINT ABATEMENT**

All workers and supervisors are trained and certified for lead abatement and are registered with the EPA for lead based paint activities. Abatement procedures include hand scraping, HEPA planning, chemical stripping, needle guns, sponge jet, and scarifying. The care in which these techniques are employed on architectural components such as doors, stair railings and windows sets ATCO apart.

## **MOLD ABATEMENT**

The health effects and legal ramifications of airborne molds and fungi are major issues. ATCO brings procedures honed and licensed for asbestos abatement into a field dominated by contractors without any special Haz Mat licensing. ATCO conducts numerous mold abatement projects at residences, schools and commercial buildings every year. Additionally ATCO has skilled craftsmen to rebuild mold/water damaged areas to like new condition.

## **DEMOLITION**

ATCO's expertise in abatement procedures makes us uniquely qualified to tackle renovation demolition projects in highly sensitive areas. If your project requires minimum impact on clients or tenants, ATCO gets it done the way you need it.

## **TRANSPORT / WASTE HAULING**

To increase efficiency and safety, ATCO owns and operates our own fleet of NYCDEC Box Trucks licensed to transport asbestos waste to an authorized transfer station for proper disposal.

## **CORPORATE HISTORY**

ATCO CONTRACTING GROUP, INC. (ATCO) was formed in 2004 with the express purpose of abating asbestos containing building materials in the New York Area. Initial clients were private residences owners and small commercial buildings.

ATCO's professionalism increased demand for our services, leading to a major presence in abatement contracting with city and county governments, military installations, public utilities, universities, community colleges, public schools and industry. In addition, ATCO has become a valued sub-contractor to commercial building and demolition contractors.

Building on our asbestos expertise, ATCO expanded into abatement services for lead, mold, PCB's, and other hazardous materials.

Because abatement of building materials directly or indirectly involves demolition, ATCO has developed a large amount of hands on expertise in demolishing all types of building materials. We are exceptionally safe and efficient in gutting building interiors scheduled for renovation.

ATCO provides service to most of the New York Region.

## **TECHNICAL CAPABILITIES**

- Estimating
- Practical Experience

ATCO's field management has over 90 years of combined practical experience. Major projects are estimated independently by our field managers and this estimate is used as a reality check against the estimators estimate.

- Estimating Systems
- Take off
- On-Screen Take-Off is used to measure and calculate quantities for the job. During this take off, the project is broken into areas, which are used for developing the schedule of values and assisting change orders.
- Job Cost Estimator is an internally designed Excel application that totals the cost for each area from the takeoff (creating the schedule of values) and adds the incidental costs and markup to create the final bid value.
- Project Planning
- Using the overall project plan and manpower estimates by area from Job Cost

Estimator ATCO assigns manpower at levels that ensures the project stays on track. ATCO's Vice-President, Mr. Viennas, has extensive experience leading multi million dollar, multi year, projects. He is very familiar with project planning software applications and using them to best advantage.

- Project Management
- Documentation

Abatement is a document and regulatory intensive trade. To insure compliance and streamline work flow, ATCO developed a proprietary data base application that manages all the project documentation from bid to billing. Key documents such as OSHA personal monitoring and regulatory notifications are integrated into the system.

- Change Order Control
- Change order requests, approvals and supporting documentation is part

of the database. An approved change order generates timesheets specifically linked to the change order, greatly simplifying auditing of change order work

- Billing

Because the schedule of values and change order process are integrated in our project management system, monthly billings are timely and understandable.

- Tradecraft

ATCO's supervisory and labor work force averages more than five years tenure. They are highly experienced in abating and removing all types of building materials quickly and safely. They are backed up by the highest quality hand and power tools available.

## **CERTIFICATIONS**

ATCO CONTRACTING GROUP, INC (ATCO) is certified by all required government agencies including the NYCSCA/NYCHA/DASNY/OGS/PANYNJ/NYCTA. (See Appendix A for Company's Licenses)

NYSDOL Asbestos Contractor's License #29535 includes the following categories:

- General Asbestos Abatement

NYSDOL Mold Contractors License #00889 includes the following categories:

- Mold Remediation

EPA Lead Abatement Contractors License#R434985

- Lead Abatement

ATCO is Certified Women Based Enterprise (WBE). Our laborers belong to Local #78; 79 and 12A Laborer's Hazardous Workers and the Mason Tenders. ATCO carries \$2,000,000 (+5,000,000 Umbrella) of liability insurance and receives a .79 EMR safety modification from our Workman's Compensation carrier. ATCO is bondable for a large variety of jobs.

ATCO workers are trained initially, and annually certified thereafter, as required by law in safe asbestos and lead paint removal techniques. Workers are also trained in mold abatement and remediation. Workers receive the 40-hour HAZWOPER and Confined Space Entry training along with the annual refresher.

ATCO's supervisors are highly experienced, with a range of 10-12+ years of field experience. Supervisors and laborers receive:

- Annual medical examinations.
- Annual fit testing for the use of respirators.
- Blood pathogen testing every 90 days for lead.
- First Aid and CPR training.
- Quarterly (or as often as may be needed) procedural and safety review classes.
- On site safety meetings at the beginning of each project.

Project managers, estimators/sales staff are trained in abatement project supervision and are qualified as certified asbestos supervisor/competent person.

## **KEY PERSONNEL**

### **Elaina Viennas, President, CEO.**

Mrs. Viennas started ATCO March 2004. and holds a degree in School Administration & Economics from the Athens Institute of Technology (A.T.E.I.) Athens Greece and has been actively handling administrative and business development for ATCO. Mrs. Viennas holds the following Certifications:

- NYSDOL Mold Remediators #MR00863
- NYSDOL Mold Supervisors Certification #MS00806
- OSHA 30 Hr Site Safety.

### **Peter Viennas, Vice- President.**

Mr. Viennas joined ATCO in 2004 as Vice-President, with experience for over 25 years with various State and Local Agencies. Mr. Viennas has extensive experience in preparation of technical specifications and safety requirements associated with environmental safety issues

and implementation of State and Local Laws pertaining to asbestos abatement. Mr. Viennas holds the following Certifications:

- NYC Asbestos Handlers Certification - #32051
- NYC Asbestos Investigator Certificate - #67896
- NYS Asbestos Handlers Certificate – AH-90-10641
- NYSDOL R-II Air Sampling Certificate - #90-10641
- USEPA AHERA Contractor Supervisor Certificate - #7HRS10897
- USEPA AHERA Inspector.
- OSHA 30 Hr Site Safety.
- NYCDOB 4Hrs Supported Scaffold User.
- NYSDOL Supervisors Certification #MS00826

### **Irene Bouloubasis, Operations Manager.**

Mrs. Bouloubasis joined ATCO in 2014 and has been an asset for the Company, with her strong managerial skills. Mrs. Bouloubasis has been involved with projects of various complexity with various NYC & NYS Agencies and has prepared site specific variance applications and reviewed project specifications for compliance. Mrs. Bouloubasis coordinates all Departments of ATCO to ensure all projects meet safety guidelines, follow City and State Regulations and ensure smooth operations and optimal outcomes. Mrs. Bouloubasis is a Graduate of the Athens University of Economics and Business and holds a B.A. in Economics. Mrs. Bouloubasis holds the following Certifications:

- NYSDOL Mold Supervisors Certification #MS00813
- NYSDOL Asbestos Designers Certification #14-20916
- OSHA 30 Hr Site Safety.
- NYCDOB 4Hrs Supported Scaffold User

### **Arlene Motiram, Office Administrator.**

Mrs. Motiram joined ATCO in 2018. She was hired as Office Administrator and payroll recorder. Mrs. Motiram responsibilities include preparation of weekly certified payroll reports, check distributions and tracking employee documentations as well as expediting State and Local Permit Applications.

# WASTE TRANSPORTER PERMIT

## GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for change of address or company name.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/offeror of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department at the time of permit renewal, or to any law enforcement officer, if requested to do so.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.
16. This permit does not relieve the permittee from the obligation to obtain any other approvals or permits, or from complying with any other applicable federal, state, or local requirement.
17. Renewal applications must be submitted no less than 30 days prior to the expiration date of the permit to:

New York State Department of Environmental Conservation  
Division of Materials Management, Waste Transporter Program

Hello,

Enclosed is your **Certificate of Contractor Registration**. Please keep this document as proof of your registration.

**This Certificate is valid for two (2) years, unless revoked or suspended.**

If you bid or commence work on a public work project or covered private project without being properly registered, you may be subject to a civil penalty and denial of your registration application pursuant to NYS LL § 220-I(8).

If your registration or a subcontractor's registration lapses while performing contracted work on a covered project, the work for that project may be completed.

If you are determined unfit and your certificate is revoked or suspended, then a monitor approved by the Commissioner must be appointed to oversee the completion of the work at your expense.

If your certificate is to be suspended or revoked for any reason, you will receive a notice and an opportunity to contest at a hearing prior to the suspension or revocation taking effect.

Please note that any subcontractors or independent contractors you hire to work on a public work or covered private construction project must obtain their own Certificate of Contractor Registration to perform such work.

If you allow a subcontractor or independent contractor to perform work on a public work or covered private project without being properly registered, you and the other contractor may be subject to a civil penalty and revocation/suspension/denial of your registration pursuant to NYS LL § 220-I(8).

Any project where work is performed in violation of Contractor Registration requirements, or any provisions of NYS Labor Law Article 8, is subject to the issuance of a Stop Work Order, pursuant to NYS LL § 224-B.

**Re:** Women-owned Business Enterprise (WBE) Certification  
**Type:** Construction  
**Specialty:** Asbestos Removal  
**Range:** A- Up to \$500,000

Dear Elaine Viennas:

We are pleased to inform you that The Port Authority of NY & NJ has re-evaluated your business and determined that it continues to be eligible to participate in the agency's Women-owned Business Enterprise (WBE) Program. **ATCO Contracting Group, Inc.** is currently qualified in the construction specialty and range noted above and remains in the Port Authority's online directory of certified MWBEs which can be accessed at:  
<https://panynj.diversitysoftware.com/FrontEnd/SearchCertifiedDirectory>.

However, the firm's updated construction references are under review by our Engineering Department. If as a result, there are any changes to **ATCO Contracting Group, Inc.** qualification status, you will be notified under a separate letter.

Please be advised that we periodically review all certifications and reserve the right to decertify any firm that no longer meets our guidelines. You must notify the Diversity, Equity and Inclusion Office in writing within 30 days of any significant changes to your business. These include, but are not limited to, a change of officers, directors, location and business name. Failure to advise us of these changes can result in decertification of your business.

This certification will remain in effect for five years or until May 27, 2030 after which you must submit a MWBE recertification application with supporting documentation. The application can be accessed from our website: [www.PANYNJSD.com](http://www.PANYNJSD.com)

Now that you are certified we invite you to use the following links to:

- Provide us with feedback on your experience with the certification process - <https://forms.office.com/g/w033bEN0Yv>
- Learn more about next steps to take to find opportunities - <https://www.panynj.gov/content/dam/port-authority/business-opportunities/certified-firms-next-step-guide.pdf>

If you have any questions regarding this letter, please contact me at (201) 395-3949 or via email at [gwigfall@panynj.gov](mailto:gwigfall@panynj.gov).

Sincerely,

Gloria Wigfall
